Greenfield

Demolition

Overview

GREENFIELD DEMOLITION are a well-established firm with expertise in demolition, site clearance, strip outs and asbestos removal. This brochure aims to introduce you to our company, showcase projects we have completed in the past year and show we are a professional and reliable company who would love to assist you on any relevant projects.

Greenfield Demolition cover all areas of the South East Of England, The Home Counties, London (Inner and Outer). We also cover parts of the South of England And East Anglia. We do sometimes go further afield depending on the scale of the project.

DEMOLITION

Greenfield's main service is demolition. We can undertake full and partial demolition from garages to large warehouses and offices. We are experienced in all sectors and undertake demolition on all types of buildings.

STRIP OUT

Greenfield Demolition can also undertake strip outs as a solitary package or together with the demolition. Common Strip out packages we undertake are schools, offices and warehouses.

ALTERATIONS

Alteration work is another package Greenfield can undertake. Alterations such as creating openings, removal of internal walls and removing partitions. We also install temporary propping mainly for schools and the retail sector.

ASBESTOS REMOVAL

Another service Greenfield Demolition offer is asbestos removal. All site personnel are UKATA trained and certified to remove asbestos. We undertake asbestos removal throughout all types of buildings.

OTHER SERVICES

- Asbestos Surveys (Management & R&D)
- Site Clearance
- Reduced Digs
- Piling Mats
- Plant Hire

All packages can be tendered for as a whole or separate package depending on your needs. If any packages need to be subcontracted, for example hoarding or scaffolding, all of Greenfield Demolition's subcontractors have been put through a pre-qualification process to ensure that we maintain the highest level of quality and performance on our site.

Greenfield Demolition hold many accreditations such as Constructionline, EXOR Gold, SSIP, CHAS to name a few.

Greenfield stand out because we are a well organised, trustworthy and professional company who can provide you with a competitive quote, fast mobilisation and we work with you to ensure all your project needs are met to the highest standard.

We run our own fleet of plant and equipment from 1.5t Excavators to 45t Excavators.

If you have any projects where we can assist, please do not hesitate to send across the relevant documents for the demolition works to tenders@greenfieldgroup.uk.com Further to this, if like us, you require a pre-qualification process to be followed, our team will be happy to fill in and send all necessary paperwork to you.

ALTERATIONS

Case Study 64 SOUTH STREET, ROMFORD

CLIENT IC CONSTRUCTION | LOCATION ROMFORD | PROGRAM 16 WEEKS | COMPLETED 15 WEEKS
PLANT 35t crusher | 25t, 3t and 9t Excavators | Genie Boom | Telehandler | Breakers | Hand tools

THE SCOPE OF WORKS

- Asbestos removal
- Erect scaffolding
- Demolition (hand demolition and plant)
- Careful removal of the main roof
- Façade retention
- Remove slabs and foundations
- Break out and infill basement
- Crush and stockpile materials
- Piling mat
- Erect hoarding

In May 2016, Greenfield Demolition was appointed to undertake the demolition works at 64 South Street, Romford by IC Construction.

64 South Street is situated in the middle of two neighbouring stores. The Former Nightclub was to be demolished with the front façade to remain in situ.

Our main challenge was the façade retention. Greenfield worked closely alongside the client and structural engineers to give our feedback when working around the propping and maybe propping systems. Careful demolition of the roof was undertaken by hand and the sequence of works designed by the structural engineer was closely followed for the rear buildings to ensure minimal disturbance to the main façade.

Case Study TOYS 'R' US, STEVENAGE

CLIENT FAIRCLOTH | LOCATION STEVENAGE | PROGRAM 7 WEEKS | COMPLETED 5.4 WEEKS
PLANT 50t crusher | 45t, 30t and 22t Excavators | Shear | Genie Boom | Telehandler

THE SCOPE OF WORKS

- Strip out building
- Demolition of building
- Remove slab and foundations
- Crush all materials and stockpile on site
- Leave site clean, tidy and tracked in

Greenfield Demolition were appointed to undertake the demolition works of a Toys'R'Us store in Stevenage. This was our second project for Faircloth Construction in the retail park.

Our main challenge on this project was that the Toys'R'Us store was adjoined to the neighbouring store.

To overcome the challenge our experienced team composed a method to allow to allow Greenfield to remove the beams with the least disturbance to the neighbouring store.

Our method was to remove each beam individually with our 45t Excavator holding the beam in the middle and our 30t Excavator holding one end. An operator with a hot works ticket working from a Genie boom cut through the end of the beam with the burning equipment. The beam was then lowered slowly to the ground and cut into manageable pieces. This process was repeated for each bay.

Greenfield Demolition finished ahead of program by just over a week.
